**Subject:** RE: CMI etc Call: 877 304 6368 code 705 035 142

Here is our plan: To have a public availability session ahead of the implementation of the old C-G plant site remedy: soil removal, cover regrading, landscaping.

Purpose: BASF to provide the local community the implementation plans for the project (This is not a regulator-driven meeting, but a BASF initiative to alert the community as to what to expect during construction and answer questions).

1. Location – the Park Ave school next door is a good venue.
2. Date / Time: June 27; 6 to 8 pm.
3. Refreshments
4. Meeting announcement: letters to Mill St residents, email NGOs, Stycos web page, etc.
5. Sign-in sheet
6. Handout (content to include basic information on schedule, contact info).
7. The plan is to have a series of posters showing the various aspects of the project and contractors, BASF, EPA available to answer questions.

### **Meeting content:**

1. Project schedule (mid July to mid October 2018)
2. Project components: excavation, sample confirmation, transportation and disposal, cap components, final grading plan.
3. Hours of operation
4. Traffic plan (no staging on Mill St.)
5. Noise and dust plan
6. Elements of the health and safety plan
7. State and Federal permits and approvals provided.
